

DoorMate — New Site Plan

Written 2 June 2026 — Based on CLAUDE.md (Project Bible) + barn-doors.co.uk Full Audit

For Terry's approval before any code is written or changed.

1. WHAT THE OLD SITE DID THAT WORKED — CARRY EVERY ONE OF THESE TO THE NEW SITE

Sales Mechanics That Convert

- ****BUY NOW buttons on every product with "From £X.XX" prices**** — present on all old product pages. This is the format. Never deviate.
- ****★★★★★ star ratings on product tiles**** — even without a review count, presence of stars helps. Keep on every product tile.
- ****POPULAR and NEW badges**** — on shop products, these are conversion tools. They tell customers what sells and what's fresh. Must carry to new site shop/accessories pages.
- ****Sizing formulas with worked examples**** — the Gainesville page ("760mm opening → 840mm door → 1700mm track") is the single most useful content on the old site. Customers always ask this. These formulas remove the #1 barrier to buying. Every hardware product page needs one.
- ****Spec request process**** — "every order followed up with a spec request sheet" is something no Chinese importer does. It must be stated on every barn door hardware page. It is the proof that DoorMate actually manufactures.
- ****Anti-imitation copy**** — "Don't Accept Cheap Imitations" on the homepage is Terry's sales voice at its sharpest. Specific, believable, rooted in real problems (poor fixing points, undersized tracks, noisy rollers). Carry it straight to the new site.
- ****12-year Rocket warranty**** — the strongest warranty claim in the pocket door kit category. Not prominent enough on the old site. Must be headline prominent on new site Rocket page and on the pocket door kits landing page.
- ****5-step installation enquiry form**** — qualifies the customer before they call. Currently only on Pocket Door Kits nav. New site must link it from every relevant product page.
- ****Free site survey CTA**** — on the services page. Low-barrier first contact. Keep.
- ****FAQ pages**** — 20 barn door questions and 11 pocket door questions exist on the old site. These are exactly the questions Google ranks on and AI assistants quote. Must carry all 31 questions to the new site, as visible text with FAQPage structured data.
- ****Gallery — 150+ named installation images**** — volume matters. Named alt text on every image is a small but real SEO win. All images carry. The design names (V-Brace, Z-Brace, Ledge & Brace, H X Brace, Union Jack, Mirror, Steel Strap) are all visible in the gallery — new site should surface these on the handmade doors page.

Trust Signals That Work

- ****"UK Manufactured" sub-label on barn door hardware product tiles** — one line, but it differentiates from every Chinese import competitor.
- ****Channel 4 credential**** — one of the strongest trust signals for a UK consumer. Currently buried on a thin "As Seen On TV" page with no images. New site gives it a proper page with episode reference (S8, E3), imagery, and embedded clip if available.
- ****Cardiff workshop** mention** — "hand-built to order in our Cardiff workshop since 2015" appears on every barn door product page. Keep. It is the credibility backbone.
- ****Pocket door brand logos**** (Barrier, Coburn, Eclisse, Rocket) on the pocket door landing page — "we stock the major brands" as a trust signal. Carry.
- ****Houzz reviews**** — the old site has a Houzz widget embedded on the homepage. The new site already has this in the "Who We Are" section. Keep it prominent.
- ****Production updates with photos during manufacture**** — mentioned on the About Us page. This is a genuine service differentiator that no competitor offers. Must appear on barn door hardware and handmade doors product pages.
- ****Workshop address**** (Rear of 81 Richard Terrace, Cardiff, CF24 1RW) — a physical address builds trust. Must be in footer and Contact page.

Content That Converts

- **"Built for real doors, real walls and real homes"** — locked tagline, already on new site. Good.
- **"Not enough headroom? The Detroit is your answer."** — problem/solution framing is excellent. 90mm minimum headroom is a specific, searchable spec. Carry this hook.
- **"The low headroom version of our Brooklyn."** — for Baltimore. Makes the choice simple. Use exactly this phrasing.
- **"Bespoke sizing — not limited to standard UK door sizes"** — Barrier kit USP. Genuine differentiator from Eclisse and Rocket.
- **"Designed with the installer in mind / no cutting required"** — Eclisse USP. A real benefit that a trade buyer appreciates.
- **"No floor track — continue floor surface through"** — pocket door kit benefit. Leads with the outcome the customer cares about.
- **"Sealed for life carbon steel bearings"** — specific engineering claim. Far more credible than "high quality".
- **Kit contents lists** (Covington, Augusta, Barrier) — customers want to know exactly what they get. These lists reduce post-purchase complaints and returns. Carry to every product page.

2. WHAT THE OLD SITE DID THAT DIDN'T WORK — DROP THESE

- **Twitter/X embed** on homepage — dead/broken. Remove.
- **Mailchimp subscribe link** in social bar — banned. Never reference again.
- **Snapchat: DoorMate2015** on Contact page — certainly dead. Remove.
- **"Premier", "elegant residences", "prestigious Vale of Glamorgan"** — marketing fluff. Terry's voice is direct. Replace with plain English.
- **"Elevate your space / seamless blend / maximize your interior space"** — AI-generated generic copy on internal sliding kits pages. Replace with Terry's words and product specs.
- **Empty shop landing page** — /shop page on old site shows nothing. New site shop/accessories page must show category tiles immediately.
- **Scigno on Shop By Brand** — discontinued 2024. Remove entirely.
- **"Password" field on Become A Partner form** — leftover from old account system. Remove.
- **Copyright 2018 in footer** — update to current year.
- **"Coming soon" Dropshipping page** — has been "coming soon" for years. Either launch it or don't include it as a page. A placeholder wastes crawl budget.
- **Gallery only shows barn door content** — the gallery has no pocket door, external kit, or internal sliding kit installations. New site gallery must include all product types when photos are available.
- **Blog posts in generic AI voice** — the old site news posts read as AI-generated. Terry's 3 new content pieces (PART 20 of bible) are the standard. Only Terry's voice on the new site.
- **No cross-sell between categories** — a customer buying an internal door never sees a pocket door kit. This is missed revenue on every transaction.
- **Accessories buried in nav** — accessories are under Shop > sub-categories. They generate pure margin. New site gives them a top-level nav link.

3. WHAT TODAY'S TECHNOLOGY ADDS THAT THE OLD SITE NEVER HAD

Google and AI Visibility

- **Schema.org JSON-LD structured data** on every page. The old site has none. This is why Google doesn't show rich snippets (star ratings, prices, FAQs in search results) for DoorMate. Every page on the new site needs: Organisation + LocalBusiness (in layout), Product + AggregateRating (on every product page), FAQPage (on FAQ content), BreadcrumbList (on category and product pages).
- **llms.txt file at root** — a curated summary of the site for AI assistants (ChatGPT, Claude, Perplexity, Gemini). Means DoorMate appears when someone asks an AI "where can I buy a pocket door kit UK". Takes 20 minutes to build. High value.
- **Direct FAQ answers as visible text** — AI assistants quote verbatim from pages. "What headroom do I need for the Gainesville?" answered in plain English on the page = DoorMate gets cited in AI responses.

- **Open Graph meta tags** on every page — controls how the site appears when someone shares a link on Facebook, WhatsApp, LinkedIn. Old site has none.
- **Proper H1/H2/H3 hierarchy** — old site is flat. New site uses Next.js with semantic structure. Google and AI assistants read this hierarchy to understand what a page is about.

Conversion Machinery

- **Chatbot in every product page corner** — the DoorMate chatbot (doormate-chat-widget.html, knowledge base in Google Sheet, API key on Notepad) is built and works. It is not live on any page yet. This is the after-hours sales person. Wiring it in is a code task, not a build-from-scratch task.
- **Quote calculators** — currently half-built. Even a v1 (2 questions: opening size, door type → recommended product + price) is better than nothing. Captures the lead whether the customer buys or not.
- **Cross-sell blocks ("Frequently Bought Together")** on every product page — pull handles, floor guides, locks, soft close units against barn door hardware. Pocket Door Privacy Lock (£29.94) against every pocket door kit. Pure margin on every transaction.
- **Stripe checkout** with Card, PayPal, Apple Pay, Google Pay, Klarna/Clearpay — Terry has an existing Stripe account. Old site uses WebFactory checkout. New site opens up all payment methods.
- **Dedicated /reviews page** — collecting Google (4.8★), Trustpilot (4.5★), Houzz (5.0★) in one place. Currently split across three platforms with no single destination.

4. COMPLETE PAGE STRUCTURE — EVERY PAGE, WHAT IT CONTAINS

Top Level Navigation

Nav structure (locked from bible/sessions):

- **HOME dropdown:** As Seen On TV | News | About Us | Contact | Trade | Become A Partner | Fitters Wanted | Dropshipping
- **Flat links:** Doors | Barn Door Hardware | Pocket Door Kits | Internal Sliding Door Kits | External Sliding Door Kits | Gallery | Shop

HOMEPAGE — /

Already substantially built. Outstanding items listed in Section 6.

Sections (top to bottom):

1. Nav bar — white, logo left, links right
2. Navy tagline strip — "Sliding Systems — Built for real doors, real walls and real homes since 2009."
3. Hero carousel — 5 installation images cycling every 5 seconds. Fixed headline: "The UK's Leading Sliding Door Specialists". Channel 4 slide to be added.
4. Gold trust strip — 4 review pills (Trading Since 2009 | Google 4.8★ | Trustpilot 4.5★ | Houzz 5.0★)
5. 6 category cards — Doors | Pocket Door Kits | Barn Door Kits | Internal Kits | External Kits | Shop
6. Who We Are — Houzz widget left, manufacturer copy right (body copy outstanding — see Section 7)
7. Brands We Work With — scrolling logo banner (9 brands — logos need to be same canvas size)
8. Systems section — 4 cards (Pocket Door | Sliding Barn Door | Internal Sliding | External Sliding)
9. Channel 4 strip — to be confirmed/fixed
10. Social media strip — to be connected to real account URLs
11. Footer — phone, address, WhatsApp, links

Structured data in layout.jsx: Organisation + LocalBusiness JSON-LD

DOORS — /doors

3 tiles: Handmade Barn Doors | Pocket Doors | Internal Doors

Short intro copy about what DoorMate offers under Doors.

No prices on landing — prices on sub-pages.

HANDMADE BARN DOORS — /doors/handmade-barn-doors

- Lead with Cardiff workshop manufacturing credential
- Pine Single: From £527.00 — BUY NOW | Lead time 4-5 weeks
- Pine Double: From £1,146.00 — BUY NOW | Lead time 4-5 weeks
- Oak: POA | Lead time 8-9 weeks (state clearly: oak NOT made in Cardiff)
- Door designs available: V-Brace | Z-Brace | Ledge & Brace | Glazed Panel (images from gallery)
- Custom design option — "describe what you want, we'll make it"
- Warping solution: hidden 20x20mm steel stress bars — the 400-year-old problem Terry solved
- Production updates with photos during manufacture
- Structured data: Product (Single, Double separately), AggregateRating

POCKET DOORS — /doors/pocket-doors

2 products + intro:

- Mirror Pocket Doors — From £395.00 — "The Only UK Manufacturer of Mirror Pocket Doors" — BUY NOW
- Weight note: 25kg before mirror added. Always recommend 30-45kg soft close (soft close NOT included — add-on)
- Lead time: 2-3 weeks
- JB Kind Internal Door Range — From £62.85 — "Over 60 Doors Across 12 Ranges" — BUY NOW
- Cross-sell: link to Pocket Door Kits (a door buyer needs a kit)
- Intro: "In most cases we can match your existing doors — if you don't see yours here, get in touch"

INTERNAL DOORS — /doors/internal-doors

- JB Kind range — 12 styles, 60+ doors
- From £62.85
- Cross-sell to pocket door kits on this page — customer buying a door probably needs a kit

BARN DOOR HARDWARE — /barn-door-hardware

6 product tiles, all with prices and BUY NOW:

- The Gainesville — From £150.00 — Single Door | UK Manufactured
- The Brooklyn — From £290.00 — Double Bi-Parting | UK Manufactured
- The Covington — From £375.00 — Single Track Bi-Passing | UK Manufactured
- The Augusta — From £395.00 — Double Track Bi-Passing | UK Manufactured
- The Detroit — From £150.00 — Single Low Headroom | UK Manufactured
- The Baltimore — From £300.00 — Double Bi-Parting Low Headroom | UK Manufactured

Page intro: DoorMate as UK manufacturer, bespoke to each project, spec request process, Channel 4 credential.

Cross-sell: pull handles and floor guides "frequently bought together" on every tile.

THE GAINESVILLE — /barn-door-hardware/the-gainesville

- From £150.00 — BUY NOW
- "Our Unique Single Sliding Barn Door System"
- 175mm headroom required
- Sizing formula: track = 2x door width. Door = opening + 40mm each side (80mm total). Example: 760mm opening → 840mm door → 1700mm track
- Spec request process explained
- What's included: all UK components, spec request form, full DIY fixing pack, fitting instructions, video link, telephone support

- Finish options: Natural | Oil Rubbed | Rusted | Matt Black Acrylic
- RAL colour option available
- Soft close option
- Pre-drill and cut-down available
- Delivery note: UK mainland. Offshore (NI, Scottish Highlands, IoM, IoW) — contact first
- FAQ section (subset from barn door FAQ page)
- Cross-sell: DM1 Handle £20 | DM2 Handle £25 | Floor Guide Concealed £5 | Floor Guide Cupped £10 | Soft Close Trigger Pair £10
- Structured data: Product, AggregateRating, BreadcrumbList, FAQPage

THE BROOKLYN — </barn-door-hardware/the-brooklyn>

- From £290.00 — BUY NOW
- "Double Bi-Parting — both doors slide to a centre point"
- 175mm headroom required
- Sizing formula: opening + 80mm ÷ 2 = door size. Track = 4x door width. Example: 1500mm opening + 80mm ÷ 2 = 790mm door. Track = 3160mm, order 3400mm.
- Same included items and finish options as Gainesville
- Use cases: office spaces, wide entrances
- Cross-sell same as Gainesville
- Structured data: Product, AggregateRating, BreadcrumbList, FAQPage

THE COVINGTON — </barn-door-hardware/the-covington>

- From £375.00 — BUY NOW
- "Single Track Bi-Passing — one door slides over the other"
- Honest caution: "Recommended for advanced DIYers or professional fitters"
- Fitting service available — lead times up to 3 weeks
- Full kit contents list: 1x Steel Rail track, M8 fixings, 4x Roller pulley wheels & straps, M8 nuts & bolts, track spacers, L Stops with bumper, bottom floor guides, installation manual
- Finish options: Natural | Oil Rubbed | Rusted | Matt Black
- Free pre-drill and cut-down available
- Use cases: wardrobes, multiple openings on same wall
- Structured data: Product, AggregateRating, BreadcrumbList

THE AUGUSTA — </barn-door-hardware/the-augusta>

- From £395.00 — BUY NOW
- "Double Track Bi-Passing — 2 tracks running parallel, 2 doors pass each other and stack to single door size"
- Bracket dimensions: standard 315mm, reversed 229mm
- Honest caution: "Not for new DIYers — can require on-site adjustments"
- Full kit contents list (same structure as Covington)
- Use cases: wardrobes, pantries, spaces with short side wall
- Finish options same as Covington
- Structured data: Product, AggregateRating, BreadcrumbList

THE DETROIT — </barn-door-hardware/the-detroit>

- From £150.00 — BUY NOW
- "Not enough headroom for a standard barn door system? The Detroit is your answer."
- Standard bracket: 130mm headroom minimum. Reverse bracket: 90mm headroom minimum.
- "Opens barn door style to spaces that would otherwise be ruled out entirely"
- "Bespoke to your project — no off-the-shelf compromises"

- Same included items and finish options as Gainesville
- Structured data: Product, AggregateRating, BreadcrumbList

THE BALTIMORE — /barn-door-hardware/the-baltimore

- From £300.00 — BUY NOW
- "The low headroom version of the Brooklyn Bi-Parting system"
- Two doors slide apart — perfect for wide openings in low-ceiling spaces
- Cardiff manufactured, bespoke to project
- Same included items and finish options as Gainesville
- Structured data: Product, AggregateRating, BreadcrumbList

BARN DOOR HARDWARE TECHNICAL PAGE — /barn-door-hardware/barn-door-technical-stuff

- All 6 system headroom requirements as text (not just images)
- Door design options with names: V-Brace | Z-Brace | Ledge & Brace | Glazed Panel
- Floor guide comparison: Roller Floor Guide | Concealed Floor Guide | Cupped Floor Guide — when to use each
- All content as proper text paragraphs for SEO value
- Link from every barn door hardware product page

BARN DOOR HARDWARE FAQ — /barn-door-hardware/faq

All 20 existing questions from old site, plus additions for Detroit and Baltimore low headroom.

FAQPage Schema.org JSON-LD on this page so answers appear in Google and AI citations.

POCKET DOOR KITS — /pocket-door-kits

- H1: "The Widest Choice of Pocket Door Kits"
- Short intro: what a pocket door kit is, why DoorMate stocks all major brands
- 4 brand tiles: Rocket | Eclisse | Coburn | Barrier
- Pocket door brand logos as trust signals (Rocket, Eclisse, Coburn, Barrier)
- Link to pocket door FAQ and tech info pages
- Cross-sell: Pocket Door Privacy Lock £29.94 and Privacy Handle range on this page

ROCKET POCKET DOOR KITS — /pocket-door-kits/rocket

- **12-year warranty — make this the headline**: "Backed by a 12-Year Warranty Against Manufacturing and Material Defects"
- "Metal frame provides an extra element of structural integrity"
- Products:
 - Rocket Single Pocket Door Kit — £167.94 — BUY NOW — POPULAR
 - Rocket Double Pocket Door Kit — £335.88 — BUY NOW — POPULAR
 - Rocket ULTRA Flush Door Kit — (price needed) — BUY NOW
 - Rocket Fire Rated Single Kit — £479.94 — BUY NOW — NEW
 - Rocket Door Frame Accessories — BUY NOW
- Cross-sell: Pocket Door Privacy Lock £29.94 on this page (confirmed in bible)
- Structured data: Product (each variant), AggregateRating, BreadcrumbList

ECLISSE POCKET DOOR KITS — /pocket-door-kits/eclisse

- "Designed with the installer in mind"
- "No cutting required — fits standard UK door sizes. Just pick the kit that matches your door size."

- Products:

- Eclipse Single — From £304.80 — Includes Primed White Jamb Lining Kit — BUY NOW
- Eclipse Double — BUY NOW
- Eclipse Fire Rated — BUY NOW
- Eclipse Syntesis Flush System (Single & Double) — BUY NOW (premium option)
- Eclipse Telescopic — BUY NOW
- Eclipse Accessories — BUY NOW

- Structured data: Product, AggregateRating, BreadcrumbList

COBURN POCKET DOOR KITS — /pocket-door-kits/coburn

- 3 system types explained:

- HIDEAWAY: Flat pack, build on site. For plasterboard walls. Self-closing option.
- EASYSLIDE: Click and snap, no tools required. 100mm finished wall thickness.
- INSEDOR: Pre-assembled galvanised steel cassette. Quick professional installation.

- Products:

- Coburn Single (Hideaway, Easyslide, Insedor) — From £117.60 — BUY NOW
- Coburn Double (Hideaway, Insedor) — BUY NOW
- Coburn Glass Door Kit — BUY NOW
- Coburn Accessories — BUY NOW

- Structured data: Product, AggregateRating, BreadcrumbList

BARRIER COMPONENTS POCKET DOOR KITS — /pocket-door-kits/barrier

- USP: "Fully bespoke — on-site cutting to suit your exact door size. Not limited to standard UK sizes."

- Full spec table:

- PD1: Max 90kg | Width 608–915mm | Thickness 35–44mm | Height 2032mm
- PD2: Max 90kg | Width 608–1200mm | Thickness 35–44mm | Height 2400mm
 - **Prices need checking before build** (old site £160/£186, bible £139/£154 — discrepancy)
- Barrier PD1 — £[confirmed price] — BUY NOW
- Barrier PD2 — £[confirmed price] — BUY NOW
- Barrier Double — £288.00 — BUY NOW
- Barrier Accessories — From £30.00 — BUY NOW

- Full kit contents list

- Optional: Touch-latch and 80kg soft close device (compatible)

- Structured data: Product, AggregateRating, BreadcrumbList

POCKET DOOR TECH INFO — /pocket-door-kits/tech-info

- Why a pocket door kit: pre-cut galvanised steel | no floor track | continues floor surface through | adjustable for 35mm and 44mm doors | door brake | sealed-for-life bearings
- Size selection table (6 standard UK door sizes)
- Rocket installation video embed
- Lining guide (4 steps)
- Link from every pocket door product page

POCKET DOOR FAQ — /pocket-door-kits/faq

All 11 existing questions from old site, plus Barrier-specific, Eclipse-specific, and Coburn-specific questions.

FAQPage Schema.org JSON-LD.

INSTALLATION ENQUIRY — /pocket-door-kits/installation-enquiry

5-step form wizard: Details → Your Wall → Kit & Door → Services → Review

Must also be linked from barn door hardware pages and external sliding kit pages, not only from pocket door kits nav.

INTERNAL SLIDING DOOR KITS — /internal-sliding-kits

4 tiles (confirmed 26 May 2026):

- Timber Door Systems
- Stainless Door Systems
- Glass Door Systems
- Minimalist Door Systems

Page intro: complete ready-to-hang systems, not components. "100,000 cycles tested. Whisper-quiet."

****Note:** Product weights not yet confirmed. Landing page tiles can be built. Individual product pages on hold until weights confirmed.**

GLASS DOOR SLIDING KITS — /internal-sliding-kits/glass-door-systems

Named systems with weight specs:

- FLEXIGLAS 50 — frameless, up to 50kg, soft close option
- STRAIGHTAWAY G80 — lightweight frameless, no cut-outs in glass, ceiling/recess/wall-fix
- FLEXIGLAS 120 — up to 120kg, soft close
- STRAIGHTAWAY G130 — heavy duty, up to 130kg, stainless patch fittings

"No cut-outs required in the glass" — state this prominently.

****Note:** Prices not confirmed for these products.**

EXTERNAL SLIDING DOOR KITS — /external-sliding-kits

- H1: "External Sliding Door Kits"
- Intro: "Galvanised, weather-resistant components. Handles doors from 75kg to 200kg. From a single garden door to a large agricultural opening."
- BS EN 10346 standard cited
- Finland origin: do NOT say UK manufactured. Do not mention Finland to customers.
- 4 tiles: Single Kits | Bi-Parting Kits | Bi-Passing Kits (ENQUIRE NOW) | Wrap Around Kits (ENQUIRE NOW)

EXTERNAL SINGLE SLIDING KITS — /external-sliding-kits/single

- Applications: garages, stables, industrial, agricultural
- "Choose by door weight" — the DM-75/100/150/200 naming convention explained
- DM-75 — £104.00 — BUY NOW
- DM-100 — £156.00 — BUY NOW (note: shop page shows £130 — price check needed before build)
- DM-150 — £229.00 — BUY NOW
- DM-200 — £281.00 — BUY NOW
- Technical spec: galvanised to BS EN 10346, precision ball bearings, vertical/lateral hanger adjustment
- Structured data: Product (each variant), AggregateRating, BreadcrumbList

EXTERNAL BI-PARTING KITS — /external-sliding-kits/bi-parting

- Same structure as Single page
- DM-75 Bi-Parting — £156.00 — BUY NOW
- DM-100 Bi-Parting — £230.00 — BUY NOW
- DM-150 Bi-Parting — £386.00 — BUY NOW

- DM-200 Bi-Parting — £444.00 — BUY NOW

GALLERY — /gallery

- All 150+ named installation images from old site
- Named alt text on every image
- Filter by: Barn Door Hardware | Handmade Doors | Pocket Doors | External Kits | Internal Kits (when photos available)
- No client names (privacy rule — see bible)
- Add pocket door, external, and internal kit photos when available

SHOP (ACCESSORIES) — /shop

This page must NOT be empty. Open immediately to 4 tiles:

- Pull Handles (19 products, £5.99–£65.00)
- Locks (6 products, £5.00–£29.94)
- Brackets & Shelves (4 products, £27.00–£45.00)
- Hardware Components (21 products, £5.00–£60.00)

Every product carries POPULAR or NEW badge where applicable.

Full product list with prices confirmed in audit Section 31–35 of old-site-audit.md.

REVIEWS — /reviews

- Dedicated page: Google 4.8★ | Trustpilot 4.5★ | Houzz 5.0★
- Links to each platform
- Houzz widget embedded
- This page is the "OUR REVIEWS" destination — improves on old site tile that just linked to Houzz
- Schema.org AggregateRating

AS SEEN ON TV — /as-seen-on-tv

- George Clarke's Old House New Home, Channel 4, Series 8 Episode 3
- Proper imagery, episode reference, video/clip if available
- "Credit to Amazing Productions"
- Remove the word "Recently" — it was written years ago

OUR STORY — /our-story

Content already written (doormate_website_content.md on Terry's PC, Part 20 of bible).

NEWS / BLOG — /news

First 3 posts must be the pieces from doormate_website_content.md:

1. /our-story
2. /blog/the-truth-about-barn-door-hardware
3. /blog/solving-the-warping-door-problem

All posts must link to relevant product pages. All must use Article schema.

CONTACT — /contact

- Contact form: Name | Email | Telephone | Enquiry | Submit
- Phone: 029 2166 0393
- WhatsApp: 07964 262113

- Email: info@doormate.co.uk
- Workshop address: Rear of 81 Richard Terrace, Cardiff, CF24 1RW
- Map embed
- Social links: Facebook | Instagram | Twitter/X | LinkedIn | YouTube | Pinterest (fix URL typo) | Houzz
- Remove: Snapchat
- "Leave us a review" link

ABOUT US — /about-us

Superseded by /our-story content (already written). The best elements from old About Us to carry:

- Cardiff, 2009, garage door background, hands-on
- Spec request process
- Production updates with photos during manufacture
- Houzz and Trustpilot as named review platforms

TRADE — /trade

- Trade account structure: 10% after 3rd purchase, 20% after 10th (confirm with Terry before publishing)
- Fitting territory concept
- Link to Fitters Wanted
- Link to Become A Partner

BECOME A PARTNER — /become-a-partner

- Stockist enquiry form
- Remove Password field — this is not an account creation
- Add: what being a stockist involves

FITTERS WANTED — /fitters-wanted

- "Claim your dedicated area — once claimed, no other fitters in that territory"
- "Installation time: 1-2 hours"
- Requirements list (as on old site)
- Contact: 07964 262113 / info@doormate.co.uk

SERVICES — /services

- Sliding door installations in South Wales (Cardiff, Vale of Glamorgan, Monmouthshire)
- Products installed: Barn Door Hardware | Internal Sliding Kits | External Sliding Kits | Pocket Door Kits | Associated Doors
- Free on-site survey — "no financial risk on first contact"
- Why DoorMate section: Space-Saving | Expert Installation | Free Site Survey | Quality Products | Pro Construction
- CTA: link to Installation Enquiry form
- Pocket door installation nationwide — coming soon
- Remove: "elegant residences", "prestigious" — not Terry's language

HOW TO ORDER — /how-to-order

- "Choosing a sliding door system is not something you do every day. Here's how to get it right."
- Guided selection: single door? double door? bi-parting or bi-passing?
- This page is what the quote calculators will eventually replace. Until calculators are built, this is the guidance page.
- Covers all product types (not just barn door hardware as on old site)

LLMS.TXT — /llms.txt

One page, 400 words maximum. Plain text. Tells AI assistants:

- What DoorMate sells
- Main product categories with URLs
- Price ranges
- Key differentiators (UK manufacturer, 12-year Rocket warranty, only mirror pocket door manufacturer)
- Contact details

5. BUILD ORDER — WHAT GETS BUILT FIRST

****RULE:** Fastest revenue first. Every session must output something that can take money.**

Phase 1 — Complete the Homepage (current session or next)

1. Add Channel 4 slide to hero carousel
2. Connect social media links to real account URLs
3. Confirm footer is complete (phone, WhatsApp, address)
4. Sign off homepage — Terry's approval

Phase 2 — Schema, llms.txt, Structured Data (one Claude Code session)

These take no new content — they are technical additions to what already exists.

1. Organisation + LocalBusiness JSON-LD in app/layout.jsx (if not already done)
2. Open Graph meta tags in layout.jsx
3. llms.txt file at /public/llms.txt (or app root — confirm with Claude Code)

Day-1 diagnostic checks (PART 24 of bible) run at this point.

Phase 3 — Barn Door Hardware (highest margin, most content exists)

One Claude Code session per product page. Build in this order:

1. /barn-door-hardware landing page — 6 tiles with prices and BUY NOW
2. /barn-door-hardware/the-gainesville — full product page with sizing formula, FAQ, cross-sell, structured data
3. /barn-door-hardware/the-detroit — full product page
4. /barn-door-hardware/the-brooklyn — full product page
5. /barn-door-hardware/the-baltimore — full product page
6. /barn-door-hardware/the-covington — full product page
7. /barn-door-hardware/the-augusta — full product page
8. /barn-door-hardware/barn-door-technical-stuff — headroom guide, floor guides, designs
9. /barn-door-hardware/faq — 20 questions with FAQPage schema

Phase 4 — Pocket Door Kits (highest volume revenue, proven by eBay data)

1. /pocket-door-kits landing — 4 brand tiles, intro copy, brand logos
2. /pocket-door-kits/rocket — 12-year warranty lead, 4 products, cross-sell
3. /pocket-door-kits/eclisse — full product page
4. /pocket-door-kits/coburn — 3 systems explained, full product page
5. /pocket-door-kits/barrier — full spec table, prices (check discrepancy first), full product page
6. /pocket-door-kits/tech-info — size table, video, lining guide
7. /pocket-door-kits/faq — 11 questions with FAQPage schema
8. /pocket-door-kits/installation-enquiry — 5-step form wizard

Phase 5 — External Sliding Kits

1. /external-sliding-kits landing
2. /external-sliding-kits/single — 4 DM variants with prices
3. /external-sliding-kits/bi-parting — 4 DM variants with prices

Phase 6 — Shop / Accessories

1. /shop landing — 4 category tiles, never empty
2. /shop/pull-handles — 19 products with prices and POPULAR/NEW badges
3. /shop/locks — 6 products
4. /shop/brackets — 4 products
5. /shop/hardware-components — 21 products

Add "Frequently Bought Together" cross-sell blocks on barn door hardware pages linking to handles and floor guides at this point.

Phase 7 — Doors Category

1. /doors landing — 3 tiles
2. /doors/handmade-barn-doors — pine/oak, designs, lead times, warping solution, production photos
3. /doors/pocket-doors — mirror doors + JB Kind range
4. /doors/internal-doors — JB Kind range, cross-sell to pocket door kits

Phase 8 — Internal Sliding Kits (on hold until weights confirmed)

Build landing page tiles now (/internal-sliding-kits — 4 tiles).

Individual product pages: when Terry confirms weights.

Phase 9 — Content and SEO Pages

1. /reviews page
2. /our-story (content already written)
3. /news — first 3 blog posts (content already written, doormate_website_content.md)
4. /as-seen-on-tv — proper page with imagery
5. /gallery — all old site images migrated
6. /how-to-order

Phase 10 — Conversion Machinery

1. Wire chatbot (doormate-chat-widget.html) into every product page corner — this is a code task not a build task
2. Quote calculators — v1, even 2 questions is enough
3. Stripe setup — dedicated session. Test mode first.
4. Basket icon added to nav once Stripe is wired in.

Phase 11 — Supporting Pages

/contact | /about-us | /services | /trade | /become-a-partner | /fitters-wanted

Phase 12 — Legacy Site Cleanup (barn-doors.co.uk)

Add 301 redirects (10 confirmed in PART 9 of bible).

These protect any legacy search rankings when doormate.co.uk goes live.

6. HOMEPAGE — WHAT'S STILL OUTSTANDING

As of 2 June 2026, the homepage is structurally correct and these sections are built:

- Nav bar ■
- Tagline strip ■
- Hero carousel ■ (Channel 4 slide outstanding)
- Gold trust strip (4 review pills) ■
- 6 category cards ■
- Who We Are (Houzz + text) ■ (body copy outstanding — see Section 7)
- Brands We Work With (scrolling banner — logos need same canvas size) ■
- Systems section (4 cards — images need replacing) ■
- Channel 4 strip ■ — review and confirm
- Social media strip ■ — links not connected to real accounts
- Footer ■ — review: phone present? WhatsApp? Full address?

****Hero carousel — how it works and must work:****

- 5 images (currently wrong aspect ratios, white space in some frames — replace with correct crops)
- Cycles every 5 seconds, 1 second crossfade
- Headline stays fixed: "The UK's Leading Sliding Door Specialists"
- Images change underneath
- Channel 4 slide to be added as one of the 5 frames — shows the Channel 4 logo/still from the episode. This is a sales slide, not just a pretty image.
- The old site hero did a sales job — it told customers what DoorMate sells, what it costs, and why to trust them. The new hero does the same but with images rather than text slides.
- Individual frames are not bugs — they are part of a carousel. Never freeze on a single frame and comment on it.

7. CONTENT — WHAT EXISTS AND WHAT NEEDS WRITING

Content That Already Exists (do not rewrite without Terry's approval)

- ****Hero headline and tagline**** — locked. "The UK's Leading Sliding Door Specialists" / "Built for real doors, real walls and real homes since 2009."
- ****Who We Are body copy**** — Terry's exact words (bible 27 May session). Outstanding task: add this to the Who We Are section.
- ****Systems section body copy**** — ChatGPT, Terry approved. Locked.
- ****All 6 barn door hardware product descriptions**** — on old site. Carry straight to new site pages.
- ****All 4 pocket door brand pages**** — on old site. Carry and improve.
- ****All external sliding kit pages**** — on old site. Carry.
- ****20 barn door FAQ questions**** — on old site at /barn-door-hardware/faq2. Answers are on that page — access them and carry.
- ****11 pocket door FAQ questions**** — on old site at /pocket-door-kits/pocket-doors-faqs.
- ****3 new content pieces**** — doormate_website_content.md on Terry's PC: /our-story, /blog/the-truth-about-barn-door-hardware, /blog/solving-the-warping-door-problem.
- ****Anti-imitation copy**** — on old site homepage. Terry's voice. Use it.
- ****Sizing formulas**** — Gainesville and Brooklyn pages on old site. Carry with worked examples.
- ****Kit contents lists**** — Covington, Augusta, Barrier pages on old site. Carry verbatim.
- ****Barrier full spec table**** — on old site. Carry verbatim.
- ****Services page copy**** (most of it) — on old site. Carry, remove the fluff.

Content That Needs Writing (Terry must approve all of these before Claude writes a word)

- ****Who We Are body copy**** — direction is locked in bible (27 May session). Claude writes to that brief, Terry approves.
- ****Handmade barn doors**** — designs page content (V-Brace etc with descriptions). Terry to confirm which designs are currently available.

- **Internal Sliding Kits** — Timber, Stainless, Minimalist product descriptions. Terry to confirm weights and product specs first.
- **Glass door kit** — product descriptions for Flexiglas 50, Straightaway G80, Flexiglas 120, Straightaway G130 (from old site) — these need prices confirming.
- **Bi-Passing and Wrap Around External Kit** — "contact for price" on old site. Either add prices or confirm ENQUIRE NOW as the correct CTA.
- **llms.txt** — Claude writes the first draft based on bible and audit, Terry approves.
- **Additions to barn door FAQ** — Detroit/Baltimore low headroom questions (not on old site).
- **Cross-sell block copy** — "Frequently Bought Together" section copy for each product type.

Content Gaps That Need Terry's Input

- **Hero carousel images** — which 5 installation images to use? Old site images in /public/img are wrong ratios. Terry to select.
- **Systems section images** — currently placeholders. Terry to supply proper installation photos per system.
- **Brand logos** — 9 brand logos downloaded but inconsistent canvas sizes. Terry to prep to same size.
- **Channel 4 imagery** — for the As Seen On TV page and hero slide. Terry to supply.
- **Client logo scrolling banner** — logos for notable installations (Trump Turnberry, Chelsea Pensioners village etc). Terry to supply — no names, logos only.

8. PRICE AUDIT — DO THIS BEFORE BUILDING ANY PRODUCT PAGE

The audit found 4 discrepancies between the old site and the bible. These must be resolved with Terry before the relevant product pages are built.

Product	Old Site (product page)	Old Site (shop)	Bible	Action
	---	---	---	---
Gainesville	£150	£185	£150	Confirm correct price
DM-100 Single	£156	£130	£156	Confirm correct price
Barrier PD1	£160	—	£139	Confirm correct price
Barrier PD2	£186	—	£154	Confirm correct price

Also missing from bible (found on old site):

- Rocket Fire Rated Single Kit: £479.94 — add to bible
- DM-50i Internal Kit: £67.00 — add to bible
- Glass door kit prices (Flexiglas, Straightaway): not confirmed anywhere

9. TECHNICAL CHECKLIST — BEFORE THE SITE GOES LIVE

From PART 24 of bible (Day-1 Diagnostic Checks):

1. robots.txt — allowing Google to crawl. sitemap.xml live, complete, submitted to Google Search Console.
2. Canonical tags clean. No duplicate URL parameters.
3. Raw HTML fetch returns real content (not a JavaScript shell). Next.js App Router handles this — verify per page.
4. Schema.org JSON-LD on every page.
5. Page speed/Core Web Vitals within Google thresholds.
6. Mobile rendering correct at 360px width.
7. Vercel deployment protection OFF when launching.
8. Google Search Console verified. Google Business Profile set up and verified.

10. DECISIONS STILL NEEDED FROM TERRY

These are things Claude cannot decide. They need Terry's confirmation before work touches them.

1. ****Gainesville correct price**** — £150 or £185?
2. ****DM-100 Single correct price**** — £156 or £130?
3. ****Barrier PD1 correct price**** — £139 or £160?
4. ****Barrier PD2 correct price**** — £154 or £186?
5. ****Hero carousel images**** — which 5 to use?
6. ****Systems section images**** — installation photos per system type
7. ****Brand logos**** — canvas prep for scrolling banner
8. ****Channel 4 imagery**** — for As Seen On TV page and hero slide
9. ****Internal Sliding Kit weights**** — needed before product pages (not landing tiles)
10. ****Dropshipping page**** — real launch plan or remove it entirely?
11. ****Bi-Passing and Wrap Around external kit prices**** — confirm ENQUIRE NOW as the CTA?
12. ****Glass door kit prices**** (Flexiglas 50, G80, Flexiglas 120, G130) — not confirmed anywhere
13. ****Trade discount structure**** — confirm 10%/20% is still current before publishing
14. ****Social media URLs**** — confirm the correct handles for the social strip on the homepage and footer
15. ****WhatsApp and full address in footer**** — confirmed as 07964 262113 / Rear of 81 Richard Terrace, Cardiff, CF24 1RW — Terry to confirm these are current

Plan written 2 June 2026. Sources: CLAUDE.md (Project Bible v2, all session updates) + barn-doors.co.uk Full Site Audit. No content invented. All gaps flagged. For Terry's approval before any code changes.
